

Trees

***Our list of trees is always changing, please call or stop by if you don't see your variety on this list...we also do special orders if we don't have your tree in our yard

***Varieties in red are fruit bearing trees

- Unless noted, Apples, Apricots Sweet Cherries, Pears and Plums require TWO VARIETIES for cross-pollination and fruiting. Sour cherries, Figs, Nectarines, and Peaches are self-pollinating and do NOT require a cross pollinator.

***All trees are hardy in zone 4

Botanical name	Common name	Variety	Light	Height and width at maturity	Uses	Description
Abies	Fir	Concolor	Sun-part	30-50'x 15-30'	Specimen, lawn, screen, naturalization, wildlife	Bluish to grayish needles, slow growing, low maintenance
